- Removes black marks
- Cleans without using harsh chemicals
- Works with just water or neutral cleaner
- Available in standard round pads, rectangular pads, and 4.5" x 10" utility pads

FAQ

XTRACT™ melamine floor cleaning pads

Ideal for wet applications—
must be completely saturated.

What types of floors can I clean with the XTRACT™ Pad?

Use on LVT, VCT, ceramic and porcelain tile, epoxy, concrete, synthetic wood flooring, terrazzo, natural stone and rubber floors.

Does this replace a pad in the Americo line?

No, XTRACT™ is a specialty pad designed to be a problem solver for LVT, tile and shallow grout, and other problematic areas where removing soil has become difficult. XTRACT™ also does an excellent job of eliminating black marks without removing finish.

Should the XTRACT™ pad be used wet or dry?

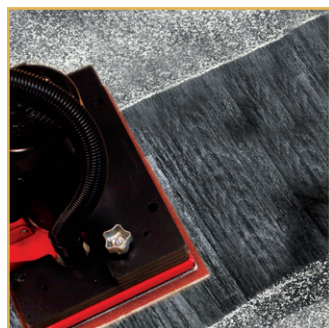

This specialty pad should be used wet, completely saturated. The movement of the XTRACT™ pad causes friction, resulting in the removal of soil in hard-to-clean areas.

What is the life expectancy of these pads?

When used on smooth surfaces, the life expectancy is up to 5,000 sq ft. Pad life is reduced when used on uneven surfaces or when solely focused on grout lines.

Will XTRACT™ remove finish?

No, it will not remove finish.

What types of machines can I use?

XTRACT™ should be used on standard speed machines, oscillating machines or auto scrubbers, up to 350 RPM.

Can I use a cleaner with the XTRACT™ Melamine Pad?

Americo recommends the use of water or neutral solution. XTRACT™ Pads are effective without the use of harsh chemicals.

What sizes of XTRACT™ pads are available?

Round Pad (diameter)	Rectangular Pad	Octopus Pad
13"	12" x 18"	4.5" x 10"
