Commercial and  
Residential  
Synthetic Carpets

## Soap & Detergent Free Effervescent Carpet & Upholstery Cleaning Solution

Extraordinary cleaning results can be your expectation, while the soap and detergent free formula leaves the carpet squeaky clean and the free rinsing solution leaves the carpet refreshed with no sticky residue.

HydraFREE contains no harsh chlorinated solvents, surfactants, butyls, enzymes, bacteria, and bleach, yet it provides excellent cleaning results on carpet that has been exposed to high levels of grease, oil, and dirt.

- Extraordinary cleaning results can be your expectation, while the soap and detergent free formula leaves the carpet squeaky clean and the free rinsing solution leaves carpet refreshed with no sticky residue.
- It is odor-free at use dilution and leaves no sticky soap or detergent residues that can contribute to rapid re-soiling of the carpet after cleaning and spotting wick back.
- HydraFREE also uses the effervescent cleaning power of activated oxygen to assist in soil suspension and extraction.

### Directions:

#### *Precleaning Precautions:*

1. Always pre-test all cleaning solutions in an inconspicuous area for colorfastness prior to application.
2. Follow all directions carefully for best results

#### *As an extraction cleaning rinse:*

1. For truckmount concentrate, mix 3 cups (1.5 pounds) of powder with five gallons of hot water. Mix well and set solution flow meter on truckmount between 2-3 gph. For portable extractors, mix 2 to 3 powder ounces with five gallons of water.
2. For faster cleaning, reduced fatigue, and more effective soil removal, extract with the RX-20 Rotary Extraction Tool. In furniture dense environments use the Evolution cleaning wand.

#### *As a carpet or upholstery pre-spray:*

1. For heavy soiling, mix 3 ounces of powder with one gallon of hot water. For moderate to light soil, mix 1-2 ounces of powder with one gallon of hot water.
2. For use with an in-line injection sprayer, mix 12 ounces of powder with five quarts of water. Use standard mix rate of 1:8
3. For faster cleaning, reduced fatigue, and more effective soil removal, extract with the RX-20 Rotary Extraction Tool. In furniture dense environments use the Evolution cleaning wand.

#### *As a low moisture bonnet cleaning solution:*

1. Mix four ounces of powder with five gallons of hot water. Spray carpet and bonnet with mixed solution.
2. Rotate or change bonnet pad when it stops absorbing soil

Available in: 6.5 Pound Jar; Case of 4 x 6.5 Pound Jar  
Part # 950-102
